Take your business to the next level with fully integrated unified communications

Highly Reliable
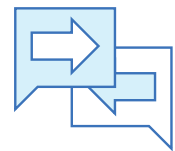

Simplified Scaling & Management

Lower Cost

Business Continuity

Increased Productivity & Collaboration

Elevate, a cloud-based unified communications and collaboration platform, enables users to be more mobile, more productive, and share ideas and content through a single system. Whether in the office, remote, or anywhere in-between, Elevate seamlessly integrates all your communication tools – desktop phones, mobile phones, and computers – into one seamless solution oriented around your employees' needs and workstyles.

ELEVATE PRODUCTIVITY FEATURES INCLUDE:

ELEVATE DESKTOP APPLICATION

Send and receive chats and SMS messages, place and receive calls, share screens, start video calls, and share files—all from one application.

VIDEO CONFERENCING & SCREEN SHARING

Leverage a reliable HD video collaboration tool that includes a conference dial-in number, custom meeting URLs, screen annotation, and more, to drive quality engagement from meeting attendees with up to 30 on camera at once!

ELEVATE MOBILE APPLICATION

See who is available, send and receive chats and text messages, place calls, and see voicemails all from one application—anytime, anywhere.

FILE SHARING & BACKUP

Collaborate securely with file sync & share and backup for desktops, mobile devices, and file servers. Plus, real-time recovery, editing and control over content, users, device settings, and more, with a wide range of integrations.

ELEVATE EXTEND INTEGRATIONS

Elevate Extend is an integrations platform that connects powerful voice, chat, video conferencing, and contact center functionalities into everyday business applications like Google®, Microsoft, Salesforce®, and more – driving higher productivity and increasing customer retention at no heavy cost.
