

Samtouch

Retail EPoS Software

passionate about retail

We understand that each business has unique requirements, that's why Samtouch is developed with many features unique to the Retail Sector

Promotions & Discounts

With the retail sector becoming ever increasing more competitive, promotions and special offers are an everyday event to entice customers into your store. Samtouch has a wealth of features that make the creation and implementation of promotions a lot easier.

Whether your promotion is time sensitive during the day or day of week, Samtouch will automatically activate or de-activate the promotion without any action from you. Simple or complex multi discounts as well as multi-buys are all part of Samtouch's advanced wealth of promotional features.

Customer Loyalty

Keeping customers makes good business sense but it's not always easy. You've spent a lot of time casting your lines, making and reeling them in. But now you've got your customer, how do you keep them?

With Samtouch loyalty solution you have the power to keep track of customer information, spend and product sales activity. Offering loyalty points on specific items for redemption against goods at a later date. Provide different pricing structures to different types of customers (Retail/Trade). For multi-store businesses all this can be centralised on the cloud so all customer information is updated "real time".

By offering loyalty to your customers you are taking advantage of one of the best marketing tools used by the biggest retailer's today. With more choice and offers from your competitors it is essential that you incorporate customer loyalty into your business strategy.

EFT Integration

We all object to queueing to pay for goods. transparent integration to you credit card terminal reduces checkout time and ensures accuracy. We integrate to two of the leading EFT terminal provider's in the UK so you can be assured of fast setup times, lowest credit card and debit card rates in the market and 24/7 customer support.

Woocommerce Web Shop Integration

With the ever increasing move toward online Shopping. Samtouch integration to Woocommerce Web Shop bridges the gap between bricks and mortar Retail outlets and online shopping.

With our simple and very effective interface to Woocommerce any products you introduce to your eCommerce platform will be transferred into your Samtouch Epos solution ready for sale. Payments on your website can be managed via a number of credit card platforms such as SagePay or Paypal.

Samtouch

empowered by innovation

Simplicity - For us, simplicity is the key to a successful EPOS solution. We believe that we break down barriers, remove unnecessary processes & promote transparency for the operator.

Reliability - We understand that your Epos System is a fundamental part of your business. From planning, design & execution of our software, minimising system critical down-time has always been our key aim.

Value - Creating real value is integral to what we do. We believe our EPOS solution provides great value for money.

Intelligence - We seek intelligence in all our technologies. That's why we utilise the latest development platforms from Microsoft. This promotes innovation.

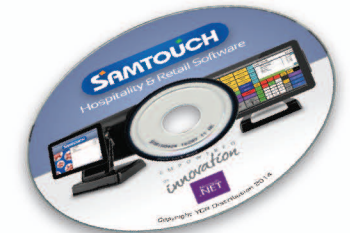

Flexibility - We understand that each business has unique requirements. That's why we have developed many features to ensure our system is as flexible as possible.

“From planning, design & execution of our software, minimising system critical down-time has always been our key aim.”
