

## SEIZURE MANAGEMENT PLAN

**Name:** Leo Muir

**DOB:** 20/06/2006

**CHI:** 2006065556

**Address:** 9 Lochlea Road, Clarkston, Glasgow, G76 8PZ

**Contact name and number:** Tom Muir (Father) 07976748427

### Seizure type

Leo has been seizure free since January 2022, He previously had 5 seizures where his head extended to the side and he made a retching noise as if choking. His body stiffened and his limbs jerked. Leo's face looked pale his eyes were open and rolled upwards or stared straight ahead and saliva came from his mouth. The seizures lasted from 1 to 3 minutes.

### Intervention:

- **Note time of seizure onset and duration.**
- **Turn Leo on his side and if possible slide something soft under his head.**
- **If the seizure shows no sign of stopping by 5 minutes call an ambulance.**

### Recovery:

Previously Leo vomited and then slept for hours after a seizure.

### Other Information:

Please inform dad immediately if Leo has a seizure.
